## PROFESSIONAL EXPERIENCE

**Software Intern | 2025–Present**

Huawei (in partnership with MTN)

- Perform manual and automated software testing to ensure functionality, performance, and security of telecom applications.
- Report bugs and inconsistencies, collaborated with developers to reproduce issues, and verified fixes through regression testing.
- Support cloud deployment tasks and monitored application performance in test environments.
- Assisted in server configuration and maintenance, including basic setup of cloud environments and system parameters.

**Data Science Intern| 2021–2022**

Bluechip Technologies

- Assisted my mentor in collecting, analyzing, interpreting and preprocessing data sets to boost optimization of products.
- I also helped present information using data visualization with the Tableau program.

## EDUCATION

**University Of ILorin | 2023– Present**
Bachelor of Science Telecommunication Science

## CERTIFICATES

**Cyber Threat Management**

Cisco

**Network Defense**

Cisco

**CCNA 1**

Cisco

**CCNA 2**

Cisco
